

The media and entertainment sectors are full of intermediaries. A Citigroup research claims that the US music industry spends an unprecedented \$43 billion a year, but only pays musicians \$5 billion, or around 12% of that amount.

About iO Beats

Welcome to iO Beats, where creativity meets innovation. Transform your music and videos into unique NFTs and sell them on our dedicated marketplace. Share the stage with your favorite artists and DJs in our integrated iO Beats player, where you can listen to and discover new tracks. iO Beats not only allows you to mint and showcase your own NFTs but also lets you create and share your own musical content. Plus, personalize your presence on the platform with special avatars based on your own images. Discover a new era of music and digital art with iO Beats.

**Mint the Music You Love,
Play the Beats You Own
— iO Beats: Where Every
Track is a Unique Experience,
Just for You.**

Vision

Our vision at iO beats is to create a global community where music, digital art and entertainment merge seamlessly, offering creators an innovative platform to express themselves and connect with a global audience. We aspire to be the catalyst that propels creativity beyond borders, redefining the way the world discovers and interacts with artistic talent.

Mission

iO beats' mission is to provide artists with a limitless space, where they can not only share their music, but also explore the opportunities offered by tokenization and blockchain technology. We are committed to creating a sustainable ecosystem that allows artists to monetize their work fairly, while offering listeners an immersive and diverse experience.

IOB Token
Summary

IOB Token

The IOB token plays a central role in the iO Beats ecosystem, offering several key functions

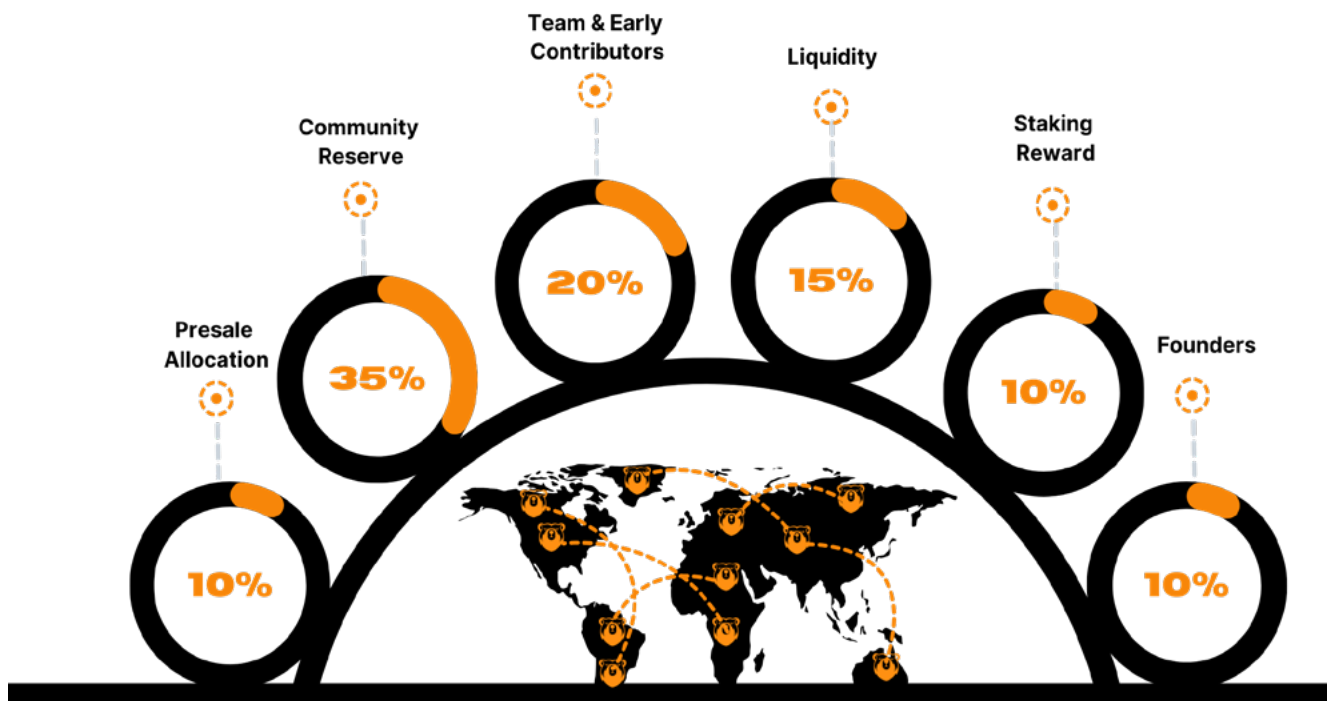

IOB Token Distribution

The IOB token lies at the heart of the iO Beats platform, driving our decentralized music and digital art ecosystem. Our carefully planned token distribution ensures that IOB is allocated in a way that supports the growth, sustainability, and long-term vision of iO Beats. From rewarding creators and users to funding platform development, every aspect of IOB token distribution is designed to empower our community and foster innovation.

Decentralized Music and Digital Art Ecosystem

iO Beats Smart Contract

Transparent and Reliable

Our smart contract is fully transparent and publicly accessible, allowing anyone to verify the terms and operations of our platform. This ensures that artists receive fair compensation for their work, with no hidden fees or intermediaries. Explore our smart contract on Etherscan:

IOB Coinscope Audit Report

The Coinscope audit provides a thorough review of iO Beats' security and functionality, ensuring transparency and trust. By validating our smart contracts, tokenomics, and governance, the audit confirms our commitment to a secure, reliable platform. This successful audit reinforces iO Beats' dedication to protecting user assets and maintaining a trustworthy ecosystem.

Decentralized Governance

IOB tokens power a decentralized ecosystem where value is fairly distributed, and the community has real influence. Token holders can vote on key decisions via smart contracts, ensuring transparency and automation. Active participation is rewarded, and a governance council guides informed decisions, with governance evolving based on community feedback and blockchain innovations.

Disclaimer
by purchasing job tokens, you agree to our terms of service and privacy policy. You also confirm that you have read and fully understood the io beats disclaimer on the risks associated with purchasing cryptocurrencies like job tokens. Our terms of service may be subject to updates, so please always check the latest version.
While you can stake your job tokens and potentially earn more, job tokens are not an investment but are created as a fun way to participate in supporting projects and creators. We do not guarantee or represent that job tokens hold any intrinsic value. We do not represent that job tokens will increase in price after the presale or that they will have any value after the presale. We make no representations or warranties regarding job tokens and are not liable for any losses or errors that may occur during their use. All users should exercise caution and use job tokens entirely at their own risk.
Users can stake their job tokens on various staking contracts. These contracts relate to individuals, organizations, protocols, and other creators that have no formal affiliation with or endorsement from io beats. While we strive to verify that the smart contract or wallet address tied to a specific staking contract is genuinely owned and controlled by its named entity, we cannot guarantee its absolute accuracy or authenticity. We in no way represent that the list of entities will be updated or updatable in the future.
By using the io beats platform and products, you accept them "as is," acknowledging that we are not obligated to update, enhance, or maintain them regularly. The services and interface may be unavailable or discontinued at any time. However, the underlying smart contract remains directly accessible on the blockchain, independent of our provided service or interface.
