- **Community Reserve (35%)**

A significant portion of tokens, amounting to 35%, is allocated to the community reserve. This reserve aims to incentivize participation, reward loyal users, and support community-driven initiatives within the iO beats ecosystem.

- **Teams & Early Contributors (20%)**

Recognizing the crucial role of teams and early contributors in the project's development, 20% of tokens are designated for their efforts. This allocation ensures fair compensation and motivates continued dedication to the project's success.

- **Liquidity (15%)**

Ensuring liquidity is vital for a thriving ecosystem. Therefore, 15% of the token supply is reserved to provide liquidity, facilitating smooth trading and enhancing accessibility for investors and users.

- **Presale Allocation (10%)**

To kickstart the project and generate initial funding, 10% of tokens are allocated to the presale. This allocation enables early supporters to acquire tokens at preferential rates, fueling early adoption and fostering a strong foundation for the project.

- **Stacking rewards(15%)**

Staking rewards, with 15% allocated specifically for the community stackers, are incentives earned by token holders for participating in network operations by staking, which involves locking up their tokens to secure the network and validate transactions.

- **Founders (10%)**

The founders play a pivotal role in driving the vision and execution of the iO beats project. As a token of appreciation for their commitment and vision, 10% of the token supply is reserved for the founders.
