

IO Beats • The Web4 Music Ecosystem

Pitch Deck v1.02 · October 26, 2025

Unlock the Future of Music with Decentralized Ownership & Exponential Growth

50B

Tokens in Circulation

Massive Ecosystem

5

Blockchains Integrated

Cross-Chain Accessibility

80%

Artist Revenue Share

Empowering Creators

Seeking **\$10M** in Seed Funding

Invest in the platform shaping the next era of music.

Traditional Industry

Artist Revenue: 12–15%

Ownership: Limited & Centralized

Governance: Opaque & Exclusive

IO BEATS Solution

Artist Revenue: 70–80%

Ownership: True Digital (NFTs)

Governance: Decentralized DAO

Web3 Core

Empowering creators & fans

DeFi Model

Fair compensation & finance

NFTs

True digital asset ownership

DAO Governance

Community-led growth & decisions

Opportunity Overview

Transforming the music industry with Web3, empowering creators, and unlocking new revenue streams for investors.

Artist Empowerment

70-80% Direct Revenue Share

True Ownership

NFTs for Digital Assets

DAO Governance

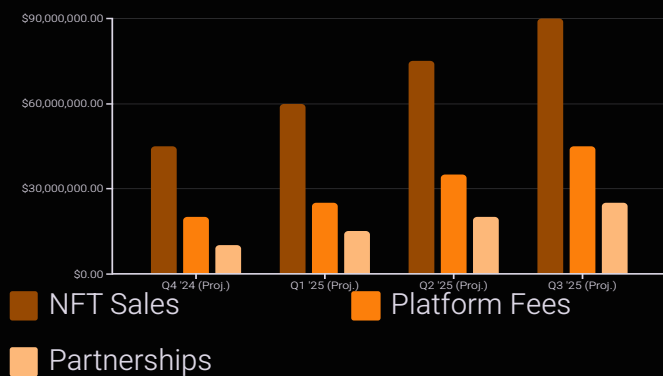

Community-Led Ecosystem

Blockchain Transparency

Verifiable Operations & Fair Dealing

Market & Financial Projections

Projected Revenue Growth & Sources

Revenue driven by NFT sales, platform fees, and strategic partnerships, showing consistent growth.

Key Market & Tokenomics Highlights

\$15B+

Web3 Music Market

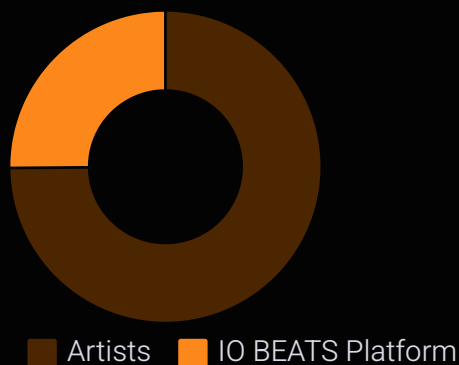

Projected size by 2030, highlighting significant growth potential.

50B

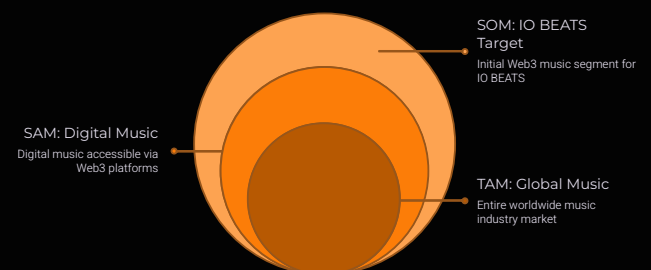

\$10B Token Supply

Total fixed supply, strategically distributed across 5 major chains.

Decentralized Revenue Distribution

IO BEATS' innovative revenue distribution model, significantly favoring artists and creators.

Visualizing the total addressable market (TAM), serviceable available market (SAM), and IO BEATS' serviceable obtainable market (SOM).

The Ask & Use of Funds

Funding Round

Seed / Series A

→ Product Development

Enhance platform features, UI/UX, and smart contract capabilities.

→ Marketing & Growth

Expand user acquisition, artist onboarding, and global reach.

→ Team Expansion

Hire key talent in engineering, marketing, and business development.

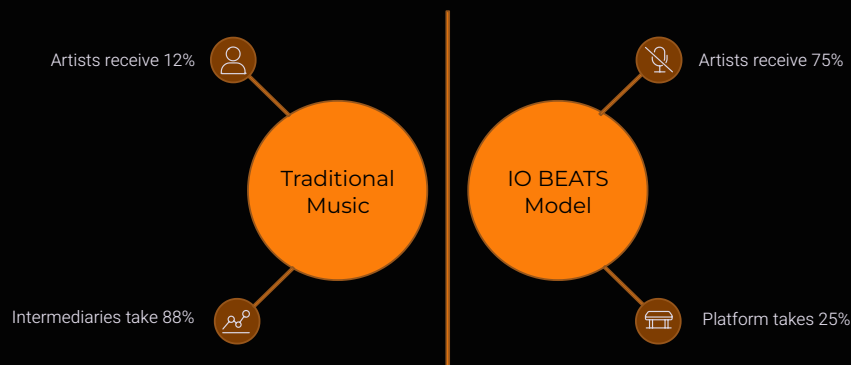

Target Amount

\$15 Million

Value Extraction in Music

The traditional music industry's fragmented value chain severely undercompensates creators, leading to market inefficiencies and disengaged fans.

A stark contrast: artists capture less than 12% in the traditional model, while IO BEATS' model targets 75% for creators.

Artist Undercompensation

Less than 12% of industry revenue reaches creators, fostering unsustainable careers despite sector growth.

Centralized Control & Opacity

Major labels and platforms dictate terms, leading to opaque royalty structures and delayed payments.

Fan Disenfranchisement

Fans remain passive consumers, lacking ownership or governance despite their active support.

Reimagining the Music Economy

IO Beats introduces a blockchain-powered ecosystem that redefines music's economic and social architecture. By leveraging NFTs and decentralized governance, we create a transparent, interoperable, and creator-centric value system.

NFT Marketplace & Royalties

Automatic, perpetual royalty distribution on tokenized content. Exclusive perks & DAO voting for collectors.

DeFi Integration & Yield

Stake IOB tokens/BeatsApe NFTs for 12-35% APR real-yield, incentivizing long-term participation.

Decentralized Governance

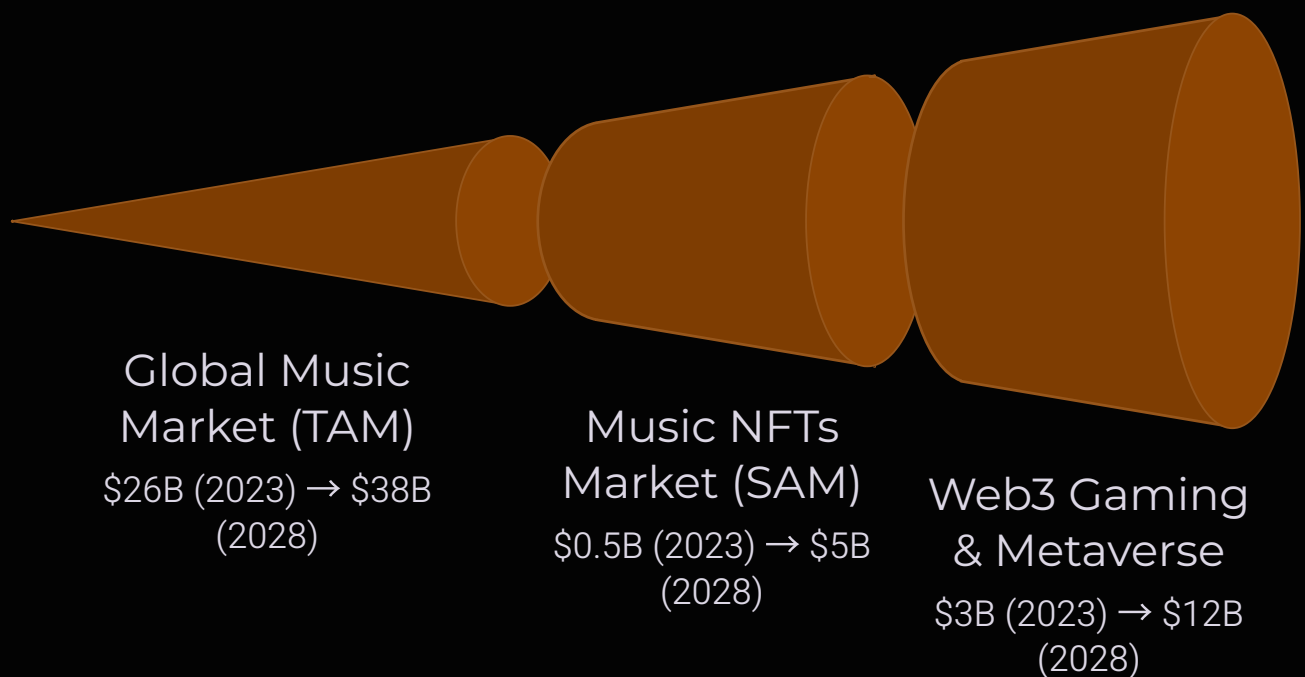

IOB holders vote on ecosystem decisions via Snapshot. Secure 4 of 7 multisig ensures transparent execution.

Multi-chain Treasury

Verifiable liquidity & revenue distribution across Ethereum, BNB, Polygon, Base, Arbitrum. Public Dune dashboards for transparency.

Market Opportunity & Growth Projections

Music NFT market projected 10x growth, demonstrating significant early-stage opportunity within Web3.

Competitive Advantage

Why IO Beats Wins

1

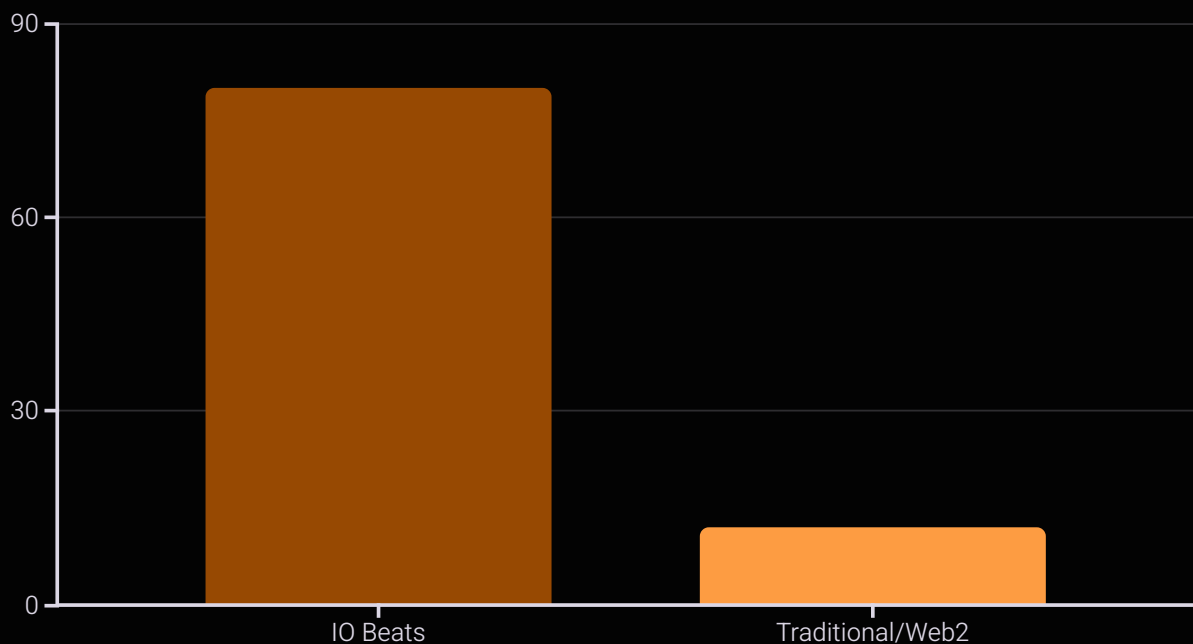

IO Beats: A Creator-First Ecosystem

- **80%+ Direct Royalties:** Maximized earnings for artists through direct, transparent payouts.
- **NFT Ownership & DAO Governance:** Artists and fans share ownership and decision-making power.
- **Full On-chain Transparency:** Verifiable and immutable records of all transactions and royalty distributions.
- **DeFi Yield & IP Rights:** New revenue streams and enhanced control over intellectual property.

2

Traditional / Web2: Opaque & Centralized

- **<12% Artist Earnings:** Artists receive a minimal share of revenue.
- **Passive Consumption Model:** Fans are consumers, with no stake or influence.
- **Opaque Royalty Statements:** Lack of clarity and trust in financial reporting.
- **Limited IP Control:** Artists often relinquish significant rights to platforms.

Our model disrupts market inefficiencies, driving superior value for creators and investors.

IOB Tokenomics

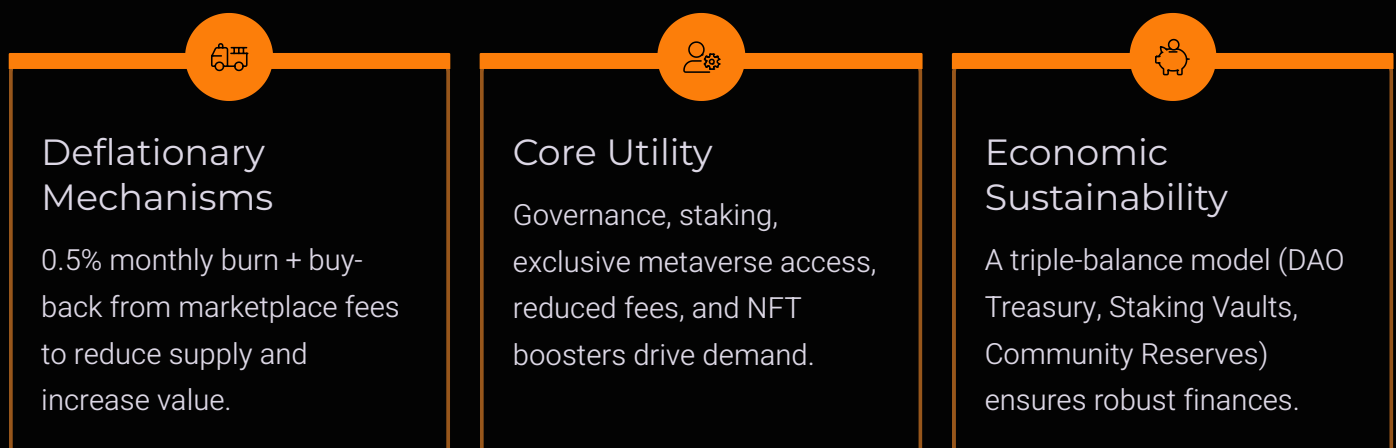

Powering Our Business Model

Our tokenomics are designed for long-term sustainability and value growth, aligning incentives across all stakeholders. Below, explore the strategic allocation and core mechanisms driving the IOB ecosystem.

Strategic Allocation for Ecosystem Growth & Stability

Allocations ensure long-term commitment, community engagement, and robust financial development through vested periods and DAO control.

Sources: IO Beats Whitepaper, Token Distribution Model

BeatsApe NFTs

Core Product & Investment Value

Our BeatsApe NFTs are unique digital assets offering tiered utility, governance power, and significant investment opportunities within the IO Beats ecosystem.

Premium Access

Exclusive events, metaverse concerts, and NFT drops.

Yield Potential

Enhanced staking returns & smart contract multipliers.

Governance Multiplier

Increased voting power for DAO proposals.

Collectible Asset

Unique digital art with integrated music metadata.

NFT Tiers & Projected Value

Our tiered system provides escalating utility and exclusivity, directly impacting investment value and holder influence.

BaseApe

Entry-level access to the ecosystem, with basic utility and community participation. Projected Value Index: 100

MegaApe

Enhanced benefits including early access to features, moderate staking bonuses, and increased voting power. Projected Value Index: 250

AlphaApe

Significant advantages such as exclusive content, substantial staking rewards, and strong governance influence. Projected Value Index: 500

LegendApe

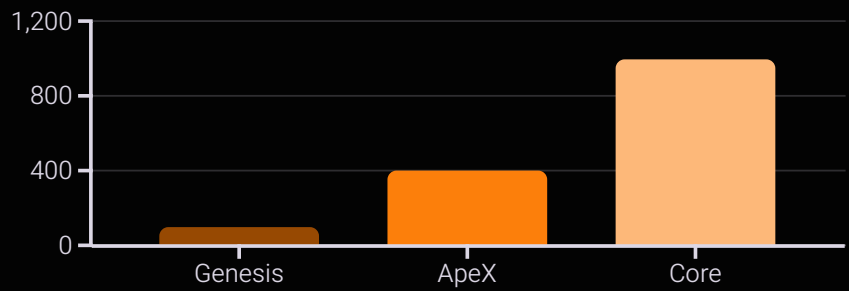

The pinnacle of ownership, offering unparalleled exclusivity, maximum yield potential, and decisive governance control. Projected Value Index: 1,000

*BeatsApe NFT tiers incentivize long-term holding and participation, scaling with ecosystem growth.
Source: IO Beats Whitepaper Market Analysis.*

BeatsApe NFT Tiers

Supply & Utility

Limited supply across tiers drives scarcity and value. Higher tiers offer significantly greater boosts and power, as demonstrated in our detailed breakdown below.

Source: IO Beats Tokenomics Whitepaper

Tier	Supply	Staking Boost	DAO Power	Key Privileges
Genesis (Gold)	100	+50%	3×	Lifetime VIP, artist collaborations
ApeX (Silver)	400	+25%	2×	Early metaverse access, private sales
Core (Bronze)	1,000	+10%	1.2×	DAO participation, event whitelists

Artist Empowerment: Driving Ecosystem Growth

BeatsApe NFTs build a decentralized artist economy, redistributing value to creators through on-chain royalties and DAO representation. This model attracts top talent and fosters fan engagement, creating a robust, self-sustaining content pipeline.

Decentralized Royalties

Automated, transparent revenue splits for artists on tokenized albums, ensuring fair compensation. Investors benefit from a thriving creator ecosystem.

Metaverse Integration

Avatar-ready NFTs for IO Beats Metaverse Festivals and VR/AR experiences, enhancing utility and community interaction.

Fan-to-Artist Economy

NFT owners share royalties, exclusive event access, and early drops, deepening community loyalty and investment in artists.

Treasury & DAO Governance

Secure Multi-Chain Treasury

A robust 4-of-7 multi-chain Safe architecture ensures secure, isolated, and interoperable liquidity across major EVM networks, mitigating single-point risks.

DAO Governance Workflow

A transparent process for proposal, voting, and execution, ensuring community-led decision-making.

Enhanced Security Framework

Audited Contracts

Regular audits by Cyberscope ensure exploit resistance.

Operational Controls

48-72h timelocks and cold-storage asset segregation.

Continuous Monitoring

Automated reporting via Dune Analytics.

Core Governance Standards

1

Quorum Threshold

10% of circulating supply for proposal validity.

2

Proposal Duration

Minimum 7 days for review and voting.

3

Delegated Voting

Token holders can delegate voting power.

4

Emergency Veto

Security-critical actions can be vetoed.

Transparency & Accountability

Quarterly Reports

Detailed reports on inflows, outflows, and expenses.

Open-Source Data

All reports timestamped via GitHub commits.

Public Dashboards

Continuous visibility via Dune Analytics.

Third-Party Audits

Independent audits ensure integrity.

Expenditure Oversight

Expenses > \$10k require public DAO vote.

IO Beats Technical Foundation

Our robust multi-chain architecture ensures unparalleled scalability, security, and interoperability, crucial for rapid growth and investor confidence.

Multi-Chain Deployment: Maximizing Reach

- Ethereum**
Robust L1 for core value.
- BNB Chain**
High-speed, low-cost access.
- Polygon**
Scalable, efficient transactions.
- Base**
Secure, developer-friendly.
- Arbitrum**
Cost-effective L2 scaling.

Smart Contracts: Secure & Agile

Solidity v0.8.x & OpenZeppelin contracts feature ERC-20/721 interoperability, transparent proxy patterns for upgradability, role-based access, and 4-of-7 multisig with time-locked actions. This ensures security and governance flexibility.

Immutable Data: Durability & Censorship Resistance

Off-chain assets leverage IPFS for fast audio retrieval and Arweave for immutable long-term art/metadata. This hybrid approach guarantees data durability and censorship resistance for all NFT collections.

Security & Operational Excellence

Audited & Secure

Regular Cyberscope audits ensure robust permissioning, timelock logic, and reentrancy protection, safeguarding investor assets.

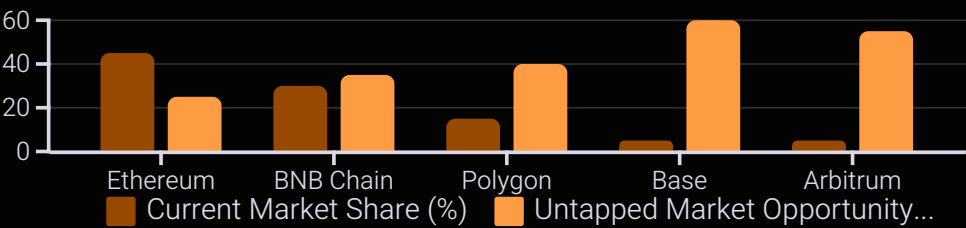

Resilient Infrastructure

Cloudflare CDN, Nginx + PHP-FPM + MariaDB backend with CSF Firewall ensure high availability and protection against threats.

Automated DevOps

GitHub Actions for CI/CD, automated Dune syncs, and SSL renewals streamline operations, reducing human error and ensuring system integrity.

Market Penetration & Opportunity

Our multi-chain strategy strategically positions IO Beats to capture significant market share by addressing diverse user bases and leveraging distinct ecosystem strengths. This bar chart illustrates our current market penetration versus the remaining growth opportunity across key blockchain networks.

Financial Projections

Delivering Exponential Growth

Our strategic roadmap aligns with aggressive yet achievable financial targets, demonstrating strong revenue acceleration and user base expansion through key milestones.

Revenue Streams

Diversified income from token sales, NFT marketplace fees, event ticketing, and DeFi integrations.

Market Penetration

Projections based on conservative market penetration rates and validated community growth.

Credibility

All financial data derived from internal financial modeling, Q2 2024, and industry benchmarks.

IO Beats Web4 Metaverse Festival

A pioneering platform merging blockchain, music, and immersive virtual experiences. It sets a new standard for community-owned entertainment, scalable for decentralized entertainment economies.

WebXR 3D Interface

Seamless VR/desktop access, spatial audio, real-time streaming.

NFT Ticketing

Multi-chain minting, staking, on-chain verification, automated rewards.

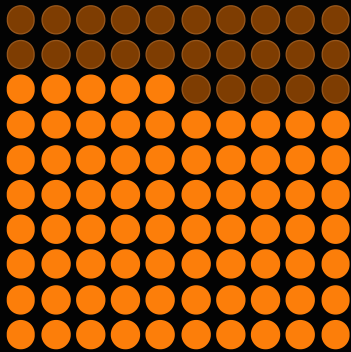

DAO Governance

Snapshot and Aragon for transparent decision-making.

Market Opportunity & Traction

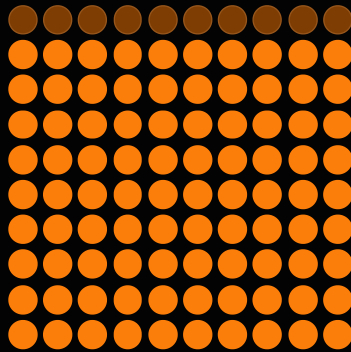

The global metaverse market is projected to reach **over \$1.5 trillion by 2030**, with digital music revenue surging. IO Beats leverages this growth with a decentralized, interoperable, and community-driven entertainment solution. Early metrics demonstrate strong engagement:

75%

DAO Member Growth

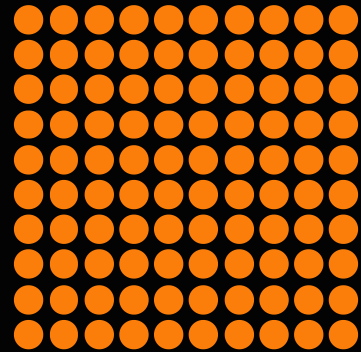

QoQ increase in active DAO members.

90%

Event Sell-Out Rate

NFT tickets sell out for pilot events.

150%

Artist Platform Adoption

Growth in artists joining our platform.

Source: Internal IO Beats data

System Architecture & Investment Value

1 User Onboarding

Web3Auth wallet connection.

2 NFT Access

IOB Pass on-chain minting.

3 DAO Validation

Snapshot vote integration.

4 VR/AR Entry

Immersive experience access.

5 Reward System

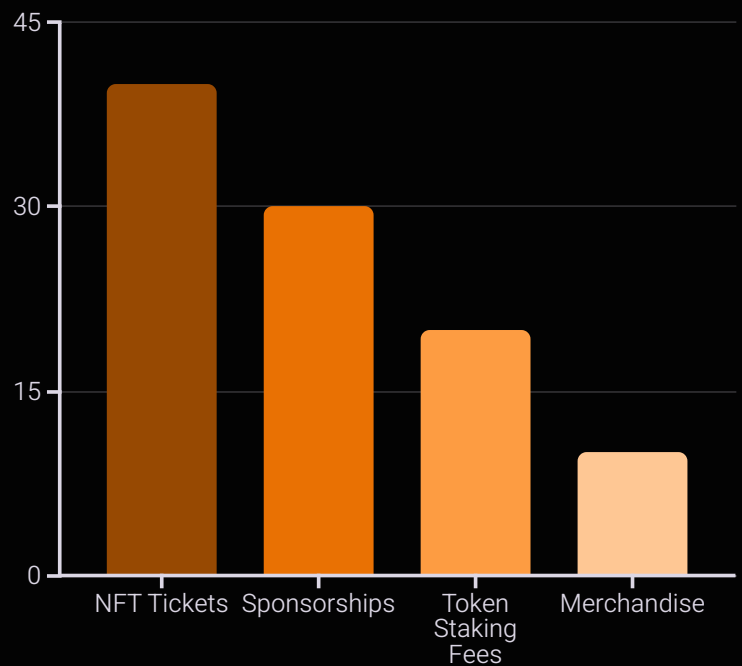

NFT + IOB token distribution.

6 Treasury Trace

On-chain transparency.

Economic & Governance Layer: Revenue Allocation

A circular token model integrates staking rewards, NFT ticket sales, and DAO-driven decisions. \$IOB and BeatsApe NFT holders earn yield via Beefy integrations and participate in governance.

Projected revenue allocation for the Web4 Metaverse Festival.

Legal & Compliance Disclaimer — IO BEATS DAO

This document is for informational purposes only and does not constitute financial, legal, or investment advice.

IO Beats DAO operates as a decentralized governance collective without centralized legal incorporation. Its members and multi-sig signers act collectively under a transparent on-chain governance model based on the LexDAO and OpenLaw DAO frameworks (2024 standards).

The IO Beats DAO complies with the Swiss FINMA and EU MiCA definitions of utility tokens and does not issue or represent securities or equity instruments.

All treasury operations follow AML and KYC procedures aligned with FATF (Financial Action Task Force) recommendations and applicable Swiss and EU standards.

Users interacting with the IO Beats DAO acknowledge that decentralized protocols involve risks and should perform independent due diligence before participating.
