

TOKENOMICS TRANSPARENCY

Tokenomics v1.02 · October 26, 2025

Institutional & Community Edition

Audited by Cyberscope — Powered by Safe · Sablier · Dune · Snapshot

Executive Summary

IO Beats DAO is building a decentralized music ecosystem uniting artists, DAOs, investors, and fans in a tokenized, fair, and traceable economy on the blockchain.

Tokenomics Breakdown

Total Supply: 50,000,000,000 IOB

Category	%	Tokens (B)	Vesting	Description
Presale	20%	10.0	10% TGE, 2 m cliff, 18 m linear	Multi-chain fundraising
Community Reserve	25%	12.5	DAO unlock ≤ 5%/year	Airdrops, quests
Staking Rewards	15%	7.5	48 m vesting	Holders rewards
Liquidity	15%	7.5	12–24 m lock	Uniswap V3 / Aerodrome
Team & Contributors	10%	5.0	6 m cliff + 36 m vesting	Core team / Ops
Founders	5%	2.5	12 m cliff + 48 m vesting	Long-term commitment
Treasury & Partners	10%	5.0	24 m lock	CEX, MM, growth

ENS Identity Layer

IO Beats DAO utilizes a comprehensive ENS naming system to establish clear identity and ownership across all operational domains.

ENS Name	Role	Expiry	Type
iobeats.eth	Main DAO Identity	1 yr	Owner
iobdao.eth	Core Governance	2 yrs	Owner
iobeatstreasury.eth	Treasury Safe	1 yr	Manager + Owner
iobeatsfoundation.eth	Legal Entity	2 yrs	Owner
beatsapegenesis.eth	NFT Collection	2 yrs	Owner
iobeatsofficial.eth	Communications	1 yr	Manager + Owner
iobeatsstudio.eth	Creator Node	1 yr	Manager + Owner
iobeatsbase.eth	Base Extension	1 yr	Manager + Owner
beatsape.eth	Art Division	9 mo	Manager + Owner
io-beats.eth	Institutional Mirror	2 yrs	Owner

BeatsApe Genesis NFT Yield

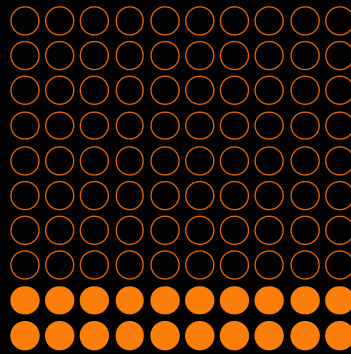

Total yield: 100 M IOB = 1% of total supply. Distribution: 3 years via Sablier V2. DAO controlled staking contract (BaseScan verified).

70

Common NFTs

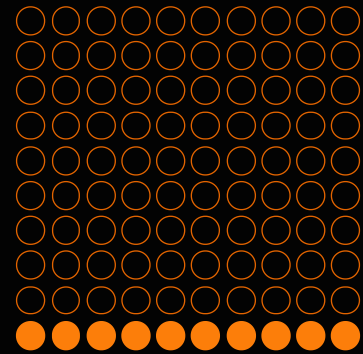

1.1 M IOB yield · 5% APR · 0.5 ETH target floor

20

Rare NFTs

1.3 M IOB yield · 10% APR · 1 ETH target floor

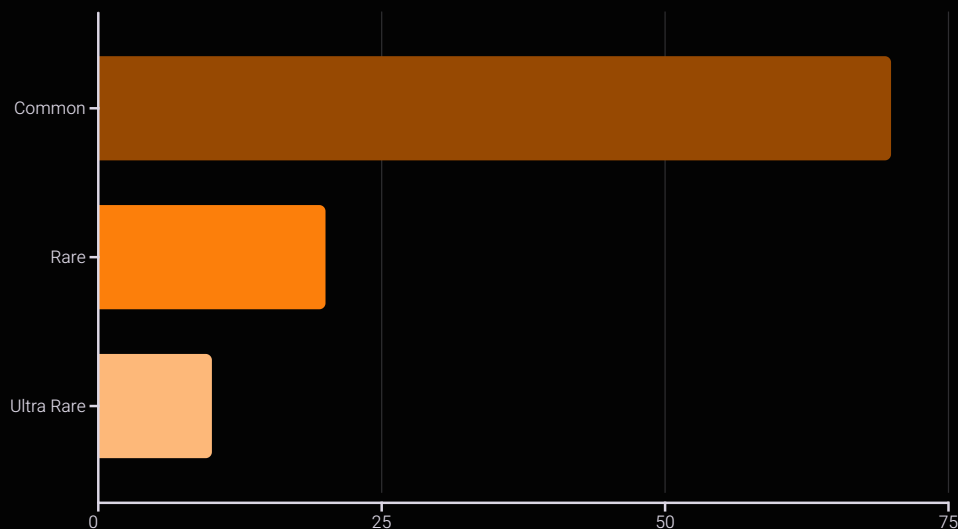

10

Ultra Rare NFTs

1.5 M IOB yield · 25% APR · 2.5 ETH target floor

Rarity Distribution

Yield Structure

The BeatsApe Genesis NFT collection provides holders with **passive IOB token yield** distributed over a 3 year period through Sablier V2 streaming technology.

Higher rarity tiers receive proportionally greater yields and APR percentages, incentivizing long term holding and community engagement.

Treasury & Transparency

IO Beats DAO maintains full transparency through multi-chain Safe wallets with publicly verifiable on chain proof links.

Safe Name	Chain	Purpose	Explorer Link (Proof)
IOB Treasury Safe	Ethereum	Governance fund & staking APR	https://app.safe.global/home?safe=eth:0xA2952C5F625E59E21012FB92A8D8269FDB324554
IOB Marketing Safe	Base	Campaigns, KOL incentives, WL budgets	https://app.safe.global/home?safe=base:0xc5086e22eb99A90F345c0b6602b09b1032bb1aB6
IOB Ops & Dev Safe	BNB Chain	Development, audits, and operations	https://app.safe.global/home?safe=bnb:0xB8a7489a9F6823e3Cd25cADfd97dEb6B6A22Bc9F
IOB Bridge Vault Safe	Matic	Treasury bridge vault, DAO bridge reserves	https://app.safe.global/home?safe=poly:0xDce35f5F9aB98c6dd671b15Fb23602f67E296c0B
IOB Expansion Reserve Safe	Arbitrum	Future DAO growth & multi chain expansion	https://app.safe.global/home?safe=arb:0x4B78FB95f7c2e0122356a73D8AAEB5AaF220d38C

Verification Layer

- **ENS:** iobeatstreasury.eth · iobdao.eth · iobeatsfoundation.eth
- **Multisig:** 4 of 7 (Founder · CFO · Tech Lead · Governance · Ops · Security · Backup)
- **Proofs:** Dune (dune.com/iobeats_dao) · Sablier (app.sablier.com/streams) · Snapshot (snapshot.box/#!/s:iobdao.eth)
- Last audit snapshot validated by Cyberscope — October 2025.

Legal & Compliance

1

Token Classification

Token = Utility, no security.

2

Legal Entity

DAO registered under IOBeats Foundation (Cayman Islands).

3

Verification

Founders KYC + Audit verified.

4

Custody

Multi sig custody + DAO votes for every unlock.

5

Open Source

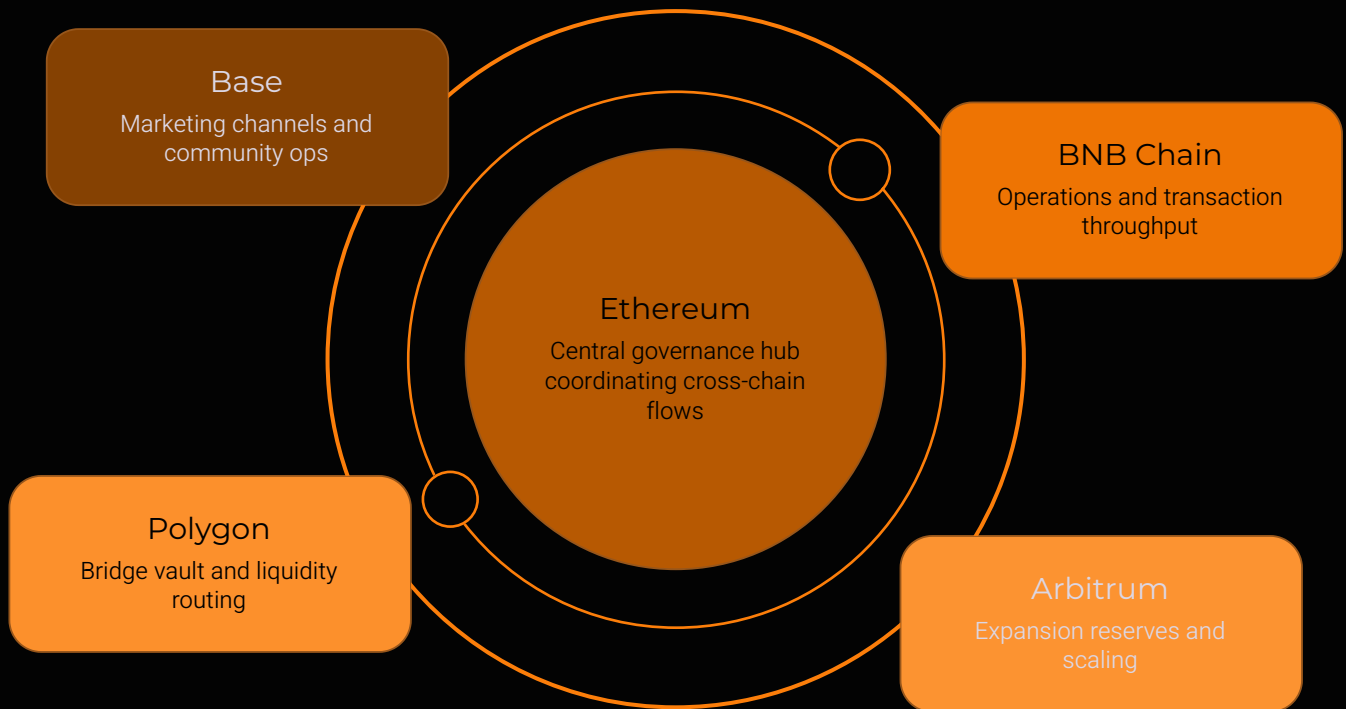

Open source contracts on GitHub
(<https://github.com/iobeatss/contracts>).

6

Emergency Protocol

Emergency Pause Mechanism = DAO governed.

MultiChain Infrastructure

IO Beats DAO operates across **five major blockchain networks**, ensuring maximum accessibility, liquidity, and decentralization. Each chain serves a specific strategic purpose within the ecosystem.

Primary Networks

- **Ethereum:** Core governance and treasury management
- **Base:** Marketing campaigns and community incentives
- **BNB Chain:** Development operations and audits

Expansion Networks

- **Polygon:** Bridge infrastructure and cross chain reserves
- **Arbitrum:** Future growth and scaling solutions

Powered by Leading Web3 Infrastructure

Participation in IO Beats DAO does not constitute a security investment. DAO Treasury and contracts audited by Cyberscope. Powered by Safe · Sablier · Snapshot · Dune · Galxe.

Safe

Multi-signature wallet infrastructure providing secure custody and governance execution across all treasury operations.

Sablier

Token streaming protocol enabling continuous, trustless distribution of vesting schedules and NFT yields.

Snapshot

Gas-free voting platform facilitating democratic governance decisions with 25M IOB quorum requirements.

Dune

On-chain analytics dashboard providing real-time transparency into all treasury movements and token metrics.

Cyberscope

Independent security auditor verifying smart contract integrity and tokenomics implementation.

Galxe

Community engagement platform powering quests, airdrops, and loyalty programs for the IO Beats ecosystem.

Legal & Compliance Disclaimer — IO BEATS DAO

This document is for informational purposes only and does not constitute financial, legal, or investment advice.

IO Beats DAO operates as a decentralized governance collective without centralized legal incorporation. Its members and multisig signers act collectively under a transparent on-chain governance model based on the LexDAO and OpenLaw DAO frameworks (2024 standards).

The IO Beats DAO complies with the Swiss FINMA and EU MiCA definitions of utility tokens and does not issue or represent securities or equity instruments.

All treasury operations follow AML and KYC procedures aligned with FATF (Financial Action Task Force) recommendations and applicable Swiss and EU standards.

Users interacting with the IO Beats DAO acknowledge that decentralized protocols involve risks and should perform independent due diligence before participating.
